Disastrous Hail Storms Hit Vulcan County

Thousands of acres of spring crops, principally wheat, in south-central Alberta were beaten to the ground by severe hail storms over the weekend.

Damage was patchy, but in the affected districts, crops were from 20 to 100 percent wiped out, with damage in most cases nearer the 100 percent mark.

In some areas, the hailstones were the size of golf balls and in others like marbles. Strong winds whipped the stones down on the ripening grain.

The storms cut swaths as wide as six miles and 10 to 12 miles long. Rural telephone poles were blown down and trees snapped under the weight of the storm.

From reports received the Arrowwood district was the hardest hit, around 30,000 acres received damage from 20 to 100 per cent. Lomond losses were 40 to 90 per cent.

Two separate storms hit Champion district causing damage several miles wide with losses up to 100 per cent. Losses at Queens-town were also heavy.

The Vulcan and outlying districts received considerable hail damage running up to 75 per cent. In town, gardens were quite badly damaged by the hail.

Five County Princesses Named

Five young ladies, under the age of 12 years, have finally been selected to enter the contest as county Princesses for the first Annual Vulcan County Fair Aug. 10 and 11.

The Princess contest, based on sale of votes, will net the lucky winner the honor of presiding at the various functions of the County Fair and she will also receive a beautiful, diamond-set wrist watch. The lady-in-waiting will receive a \$25 gift certificate to be used at any store in the County.

The tickets are being printed in five colors—a color for each contestant, and are backed by a beautiful selection of prizes to the lucky holder.

Committees have been set up to sponsor each girl and they will swing into action this weekend in a whirlwind campaign to decide the winner of the honor of Vulcan County Princess.

The candidates and the districts they represent are as follows:

Brant-Ensign — Miss Barbara Fletcher.

Lomond-Armada — Miss Linda Lucas.

Vulcan-Kirkcaldy-Reid Hill — Miss Marjorie Kurtz.

Milo-Queenstown-Arrowwood and Mossleigh — Miss Noreen Nelson.

Champion-Carmangay — Miss Francis Versluys.

Local Marksman At Calgary Shoot

At the Provincial Rifle Association shoot held recently at the Sarcee ranges, Calgary, Robert S. Irwin was successful in gaining second prize in the Calgary Garrison Tyro Match with a score of 34 out of a possible 35.

In the Dutton Memorial event Mr. Irwin placed third with 49 points out of 50 and in the Lethbridge Brewery match he again scored 34 out of a possible 35.

The local marksman, who is also a sergeant in the Calgary Highlanders reserve army, placed 11th in the P.P.C.L.L. snap shooting competition out of a large entry.

Annual Field Day At Lethbridge

Wednesday, July 25th has been chosen as the date for the Annual Field Day at Lethbridge Experimental Station. This will be well worth attending. The following program is the program for the day:

Tours of various phases of experimental work between 9 a.m. and noon will include: Soil Fertility Studies, Dry Land Seed Drill Studies, Cereal Crops, Weed Control, Gardens, and the New Livestock Barns.

Special Speaker at 2 p.m. Dr. J. L. Doughty, Officer-in-charge, Dominion Soil Research Laboratory, Swift Current, Sask. His topic: "Your Soil and Mine."

For the ladies—Visits to the New Food Processing Laboratory.

For the children—Games, Races, and Movies.

Bring your family and pack a picnic lunch. Coffee, Milk, and Cream provided. Come anytime between 9 a.m. and 2 p.m.

Town and City Folks—Come and meet your farmer friends!

County School and Municipal Committees Hold Meetings

The regular meetings of the County Council, School Committee and Municipal Committee were held during the week of July 8th to 14th. At the School Committee meeting held July 8th all the Committee members were present and a large volume of routine business was transacted. The Committee gave final approval to the teachers' salary schedule which was agreed upon with the teachers' bargaining agent. Rates for van drivers contracts were also set.

A number of teachers' resignations were accepted and two new teachers were appointed to the staff: Mr. D. Maisey, appointed to the Ensign school and Miss Doris Hittle to the Arrowwood school. A delegation from the Reid Hill Home and School Association discussed with the Committee the problem of school accommodation at the Reid Hill school. The delegation urged that another room be added to the school. After discussing the needs of the Reid Hill school at some length the Committee were of the opinion that the present staff of 3 teachers could handle the school for the next term.

Mr. A. Hodges, Architect, Calgary, was at the meeting and went over plans for the new school buildings which are to be erected at Milo, Carmangay and Champion. Present plans are for an 8-room school at Carmangay, a 6-room school at Milo and a 4-room school at Champion. The Committee decided to hold meetings at these various places to discuss with the ratepayers plans for the new school. It was thought that discussions at these meetings would help the Committee decide on the final plans, which are ex-

THE 1951 CHUCKWAGON RACE CHAMPIONS

MUD-SPATTERED, tired but happy, these are the men who won the 1951 Chuckwagon races at the Calgary Exhibition and Stampede—the Willard and Nelson outfit from Queenstown, Alberta, splash- ing its way to the Canadian chuck- wagon race championship Satur- day night as the 1951 Calgary Ex- hibition and Stampede drew to a close.

The Willard and Nelson outfit from Queenstown, Alberta, splash- ing its way to the Canadian chuck- wagon race championship Satur- day night as the 1951 Calgary Ex- hibition and Stampede drew to a close.

Competing among the top 16 wagons from five days' competi- tion, driver Hank Willard wheel- ed his team of four horses through the figure eight and around the half-mile track in 1 minute, 22.2 seconds, his second highest time of the week.

But he drew his first penalty of the week when his outriders failed to toss the stove into the wagon, giving him a gross time of 1:26.2 and fourth place in the heat. His total time for the week was 7:49.36.

Second place went to the John- ny Phelan outfit from Red Deer with a weekly total time of 8:02.2. This wagon ran the final race with a gross time of 1:20.7.

Although the best wagons were running, times were slowed down by the slippery and heavy track which was soaked by a downpour that started about an hour before the races were scheduled to get under way. Starting time was delayed half an hour. The infield was a sea of mud and water.

The Buckhorn Ranch outfit of Pincher Creek took first place in the first heat with a running time of 1:21.8 and retained the lead even though handed a three second penalty for a lost stove and late outrider.

The W. I. Newman wagon from Vermillion would have wound up in second-place in the second heat if it hadn't been assessed a two second penalty for interference with Jack Lauder's outfit from Elnora. This dropped it into last spot. Emil Jensen of Gadsby took top penalty-free running time of 1:26.

Slim Fenton's wagon from Cochrane was the only one of the third heat free from penalties which gave it first place with a running time of 1:25.6. Fastest running time of 1:22.5 was made by Calvin Baile of Morrin, but was penalized four seconds for losing the stove.

The four wagons in the fourth heat turned out to be the first four

winners of the week. Here driver Connie Glass of the Johnny Phelan, Red Deer, wagon rang up the fastest running time of the even- ing, 1:19.7. He was penalized one second for a late outrider, but won the heat over Willard and Nelson and W. H. Greenwood. These three wagons entered the track at the same time but the Phelan entry was pulling well ahead before it reached the first turn.

The first 12 of the final 16 chuckwagons qualified as money- winners.

Besides winning first money for the week, and well up in the day money, the Willard and Nelson group will receive a number of trophies and prizes donated by different firms.

Fatal Accident At Champion

The entire Community was shocked and saddened by the fatal accident that befell Morgan W. Smith, age 45, Saturday, July 14 about 1:30 p.m.

Mr. Smith was doing some fence- ing on a side hill and was operat- ing a power take-off post hole digger from his tractor. The tractor got out of control and rolled backwards over and over three times, killing Mr. Smith instantly, the tractor finally landed in the river.

Besides his wife he is survived by seven children, the eldest of whom is 13 years old, his aged mother, three brothers and three sisters.

At the time of his untimely death Mr. Smith was presiding Elder of the Champion branch of the Church of Jesus Christ of Latter Day Saints of the Leth- bridge stake.

The funeral service was held from the Community Hall at 2:30 p.m. Wednesday and interment was made in Champion cemetery.

The sympathy of the community is extended to the family in their sudden sad bereavement.

Wins Ottawa Trip

Mervin Brooks has been chosen as one of the Alberta Cadet rifle team that will compete in a Dominion-wide match at Ottawa in August.

Mervin placed seventh in the 303 and ninth in the .22 rifle class in the Alberta Cadet competition held at Calgary June 30th to July 7th.

Vulcan Pioneers Laid to Rest

Charlotte Francis
A pioneer of the Vulcan district, Mrs. Charlotte Francis, died in the local hospital, June 29th at the age of 90 years, after an illness of two years.

Born Charlotte Felch, May 15th, 1861, at Rockport, Ill., she was married to the late Charles Francis at Pittsfield, Ill., in 1889. In 1912 the family came to Canada and settled in the Vulcan district, where they homesteaded.

She is survived by two children, Mrs. C. Zhard and William Francis, both of Vulcan and seven grandchildren and 5 great grand-children; one brother, Jim Felch lives in Portland, Oregon. She was predeceased by her husband ten years ago.

Burial was from the Vulcan Church of Christ, with Mr. James Chapman officiating. Interment was made in the Vulcan cemetery. Pallbearers were: Bob Todd, Simon Wiersma, L. Hammer, Ed Finch, J. M. Hill and Wilfred Callaghan.

Francis Marie Malden
Funeral services for Francis Marion Malden, well-known old timer of the district, who passed away July 9th, at the Holy Cross hospital, Calgary, after being stricken with a cerebral haemorrhage two days previously, were held from the Vulcan Church of Christ on Thursday last.

Born September 21st, 1867 in Tama County, Iowa, he spent his early years railroading and bar-bering in Iowa and Illinois. He was married to Estella Barbara (Haymes) Hume on November 30, 1896, at Marshalltown, Iowa.

Mr. Malden farmed in this state until 1909, when he moved to Portland, Oregon, where he was engaged in contract construction work for a friend, for five years. He came to the Vulcan district in 1914, where he continued farming operations until his retirement two years ago.

He was predeceased by a daughter, Fern Lucille, in December 1899, and a son, Christie Leroy at Vulcan in September 1918, and by Mrs. Malden in February 1948.

Surviving are two brothers, Dave and George and George of New Mexico, also a stepson, Edwin J. Hume, six grandchildren and six great grandchildren all of Seattle, Wash.

For the past two years Mr. Malden had resided at the Yale hotel, Calgary.

Burial was made beside his dearly beloved wife, in the family plot of the Vulcan cemetery.

Four Canadian universities give courses in forest management: British Columbia, New Brunswick, Toronto and Laval, P.Q.

St. Mary's Dam Officially Opened

The official opening of the St. Mary River, south of Lethbridge, took place on July 16, when the Rt. Hon. James G. Gardiner, Minister of Agriculture, inaugurated the key structure of a project designed to bring water when and where needed on about 500,000 acres of land in south-western Alberta.

Stored behind the dam is 285,000 acre-feet of water, forming a lake 15 miles long.

The Objective
The St. Mary River Dam, started in 1947 and now completed, is the first step of a project intended to overhaul the natural moisture distribution of Southern Alberta.

Undertaken by the Government of Canada under the provisions of the PFRA, the St. Mary River Development calls for the co-operation of the central government, the Alberta government and the farmers of the district interested. In building the dam, as well as the main canal and the first reservoir, the central government has made the first move. From there, the government of Alberta and the farmers in the area will carry on.

More precisely, the Canadian Government has undertaken the responsibility for all engineering work and for the construction of the main dams, reservoirs, connecting works and the appurtenant structures between Waterton River and Ridge Reservoir inclusive. The Alberta Government under- construction of the balance of the project from Ridge Reservoir to Medicine Hat, including all distribution systems; it is also responsible for the colonization and settlement of new irrigable lands. Preference will be given to veter- ans and farmers from crop failure areas.

Present plans include the construction of seven large reservoirs and several smaller ones connect- ed by many miles of canals to 17 divisions of irrigated land. The new works will extend irrigation to some additional 400,000 acres

and bring the total of irrigated land on the project to about 520,000 acres. Linking the works on the St. Mary with those of the Milk River in the Canadian territory will irrigate the entire land area located between Cardston and Medicine Hat.

The Main Structure

The key structure, the St. Mary Dam, is the largest and the most costly item. Filled with compacted earth, it is 186 feet high and creates a lake 15 miles long and about 6 miles wide at the widest point. What is now the bottom of the lake was a few years ago a small village. Some 100 people have been moved and part of their lands purchased by the govern- ment. Though the dam is a half mile long at the top, the length of the river bed is only 300 feet. Before starting the construction of the dam itself, it was necessary to construct a large tunnel 20 feet in diameter and 2,100 feet long to divert the water of the river from its natural course towards the reservoir. The dam is also provided with an irrigation tunnel 17 feet in diameter and 2,900 feet long to let out the water needed for irrigation.

A National Asset

The re-arrangement of water flow following the completion of the works on the St. Mary and the junction with the Milk River water-storing project will change the face of agriculture and industry as well in this district, as it did in the other parts of South- ern Alberta already irrigated. In the Taber-Lethbridge area, for instance, the growth of food process- ing plants has been a natural accompaniment of irrigation. Can- ning crops and sugar beet culture are flourishing therein. Large acreages, endowed with uniform soil and climatic conditions, are well adapted to the production of a large volume of bulky agricul- tural products, such as vegetables, which are expensive to transport. With sufficient moisture, volume can be maintained as yield does

not tend to fluctuate. Exposed to constant drought when left in their natural condition, these semi- arid areas of fertile lands adja- cent to Western Mountains rapidly become a valuable national asset for agriculture and industry if the mountain water is made avail- able. They thus have more than local importance.

Rural and Urban Value

Past experience has also shown that irrigation increases both rural and urban population. The land devoted to specialized crops in the Taber-Lethbridge areas is now supporting a large number of people than when it was sown to grains and similar extensive crops. A family can live on about 80 acres of irrigated land and it is considered that one or two persons find employment in the surround- ing cities for each person living on the farm.

Wins Sheep Awards

B. H. A. McDonald of Vulcan won two firsts and a second with his Hampshire sheep at the 1951 Calgary Exhibition. He received first for Ewe, 2 or 3 shears; first for Ewe, 2 or 3 shears with own lamb nursing and second for Ram lamb.

Methods of converting wood waste to commercially usable products is one phase of scientific forestry under continuous study at the Forest Products Laboratory of Resources and Development in Ottawa. Results of research and experiments carried on at the labs, are made available to the wood-using industries throughout Canada.

Color and infrared photography shows special possibilities for surveys of forest resources.

Ecuadorian President Visits U.N.

During his visit to the United States, Ecuador's President Galo Plaza Lasso was welcomed at the United Nations where he addressed a special meeting of the U.N. General Assembly called in his honor. Chatting with Sr. Plaza after the Assembly's meeting are Assembly President Nasrollah Entezam (left) of Iran, and Dr. Luis Padilla Nervo, Permanent Representative of Mexico to the U.N.

Safety On The Farm

From statistics garnered from the National Safety Council, farmers lead a rather dangerous life. For everyone killed accidentally many more are seriously injured. In contrast to such occupations as mining, construction and transportation, farm injuries are mounting.

While the increasing use of machinery may be the cause of the rise in the accident rate, farm animals are still a major hazard to the rural worker. In one report they are at the top of the list with horses causing the most mishaps. Cows and bulls come next. A third of the farm casualties are among children due to the fact they are allowed to ride or be close to operating machinery, says C-I-L Agricultural News.

One cannot blame farm machinery for being the major cause of the mounting rural accident frequency rate. Axes and pitchforks take a sizeable annual toll and they have been used for centuries.

There is no doubt that when one analyses the cause of farm accidents, carelessness will be found to be the chief reason behind them. Manufacturers of modern farm machines are careful to place safety guards on them. These are removed when repairs are being made and often are not placed back. Safety instructions on pesticide containers are disregarded and since many pesticides are poisonous, death or painful illness could occur from carelessly handling them.

While industry has well-developed safety campaigns, the farmer is usually on his own and suffers most when he is laid up from an accident. It is up to the individual farmer, therefore, to organize his own safety program and conscientiously follow it.

An Office Survey

One way of evaluating a school system is by finding out how its graduates measure up to their new jobs.

With this in mind, the Canadian Research Committee on Practical Education recently made a survey of office workers across Canada. The committee wanted to know, among other things, what skills were needed in modern office work, what kind of people office managers were looking for, and what kind of people they were getting.

The survey, which took in 328 firms averaging 103 office employees each, produced some rather interesting findings.

Stenographers invariably head the list of positions difficult to fill, especially in Quebec. Shorthand and typing are criticized more frequently than any other commercial skill. Surprisingly enough, however, certain other evidence leads the committee to conclude "that less than one-half of girls in offices ever need to type, and less than one-quarter ever need to use shorthand."

Where non-commercial skills are concerned, most of the criticism is levelled at deficiencies in spelling, English, writing and arithmetic.

Fifty-one per cent of the firms express no serious dissatisfaction with the personality or character of high school graduates. Quebec and Western companies are more critical than those in Ontario and the Maritimes. Lack of initiative is the most common complaint: irresponsibility and lack of interest in the work are close runners-up.

In hiring new office workers, 35 per cent of these firms ask for the applicant's high school record. This practice is most common in Ontario and least common in Quebec. Fifty-five per cent of the firms usually consult the school for an appraisal of the applicant's personality, character and suitability for the job. They nearly always find this information reliable, and the Committee suggests that more employers should take advantage of this service offered by the schools.

The only true national unity is that which, like Canadian unity, arises from the needs and desires of the people. Unity foisted on a people from above such as that in the U.S.S.R. is not unity but tyranny.

More than 13,000 buffalo are found in five of Canada's National Parks. The animals are in Elk Island and Banff National Parks in Alberta; Riding Mountain National Park, in Manitoba; Prince Albert National Park in Saskatchewan; and in Wood Buffalo National Park in northern Alberta and the Northwest Territories.

THIS AND THAT

BY V.A.C.

We could not understand why the farmers were worried about the crops in June. With rain coming down in sheets, and heavy blankets of snow falling, what more could you desire for the seed bed.

Spring is coming! Mrs. William Shields has a sturdy crop of crocuses blooming in her yard, this strange July 1951.

That reminds me of a little poem I have about fairies and prairie flowers, which I wrote for the youngsters once.

Tell Me, Queen of Fairies
Tell me, lovely Queen of Fairies,
Whisper to me fairy, truly,
What the busy bees are buzzing
To the lilies in the coulee.

"Messages of love they're crooning,"
Whispered in my ear the fairy;
"Posies sent to lovely ladies
By their lovers on the prairie."
—V.A.C.

Recently the editor of the Lethbridge Herald wrote an editorial about men's ties. It was pointed out that ties worn by men today are as outlandish in style as the hats worn by women. The editor thought it was time for Miladi to give the stronger sex the old horse laugh for his weakness for glaring neckwear. This is not likely to happen, however, because the ladies who buy the hats, at which the men laugh, also buy 63 per cent of the cravats sold. I was about to write '63 per cent of the cravats worn,' but that would be incorrect since some of the ties bought by the ladies never get out of the box. The male recipient of such a tie takes one look, slaps on the lid, and promptly tucks it away "far from the madning crowd's ignoble strife."

Thanks to modern Neon lighting we never hear of a fellow "painting the town red" today.

The Need Of Today
Oh, it isn't reform that is needed today!
It's lightness of heart, the spirit of play!
It's letting go of the sober view
And seeking life as the children do.

It's taking time for the little things
That out of confusion calmness brings.
The time to idle and meditate
On the simple joys ere it be too late.

To delight in the water's rhythmic song,
Forgetting the care of the toiling throng;

To lie on the pulsing earth and rest
As you watch the wild bird 'build its nest;

To learn to be friends with the quiet trees—
Ah, gifts of a loving Maker, these!

To tramp through the woods with a dog at heel;
To build a fire and eat your meal
'Neath the spacious roof of God's outdoors,

And know that the whole wide world is yours!
Why the greatest, most glorious boon of all
Is to be in tune with the season's call!

It's being alive to the soul of things
Till your heart beats high and your spirit sings
And you laugh aloud with the careless joy

Of a happy girl or a merry boy!
Oh, the poignant need of the world today
Is joyousness, love of the earth—and play!

G. G. Bostock.

Cross-Roads

Off as he jogs along the Winding way,
Occasion comes from Every Man to say—
"This Road?—or That?" and as he chooses then,
So shall his journey end in Night or Day.

Stiffer Laws On Motor Travel

There is a stiffening up of laws in connection with Motor Vehicles Act, with several amendments to existing regulations, and sterner penalties exacted for infraction.

There is a section of the act relating to careless driving as differentiated from dangerous driving, and penalties are such as to check the tendency to ignore the regulations. Everyone is familiar with the impatient motorist who dodges out from a line of cars hopping to gain on one or two cars ahead before he has to drop back into his own line. He can be a menace to oncoming traffic, as well as to those going in the same direction. Careless driving might also include the drivers who ignore the solid white lines which indicate no passing or who attempt to pass traffic while climbing a hill.

The regulations say: No person should drive a motor vehicle on the highway without due care and attention or without reasonable consideration for other persons using the highway.

It is easy to violate such broad coverage but penalties for infractions have been increased in a general way from a fine of \$100 or 30 days to \$500 or six months.

Tractors now operating on the highways must be equipped with red tail light and must also be equipped with a dimming switch like cars.

A regulation applying to foreign cars is that they must produce a custom's permit if required. This is a new regulation affecting incoming cars from foreign countries.

In case of an accident, if no insurance is carried, and if a driver receives judgment against him, his driver's or chauffeur's license may be suspended anywhere in Canada, until he has satisfied the conditions of the judgment.

Freight Rates Go Up Again

The board of transport commissioners awarded the railway an interim freight rate increase of 12 per cent.

The higher rates are estimated to add \$54,000,000 a year to Canada's annual freight bill. The railways had asked for \$89,000,000 made up of a double-barrelled boost of five and 15 per cent.

It is the third major increase in rail rates since 1946.

The railways received a general increase of 21 per cent in 1948 and another of 20 per cent spread over three instalments in 1949 and 1950.

The temporary award made now will stand until the board has completed a fuller examination into the railways' financial needs next fall.

The new award while authorizing a general increase, prescribed a series of customary exceptions, which include the west's grain traffic, joint rates between Canada and the United States and export rates to and from Canadian ports, which are kept on a parity with those of competing U.S. ports.

In its judgment, the board said it will give consideration to putting into effect two recommendations of the royal commission on transportation when it deals more fully with the railways' application in the fall. These are:

1. Provision of ceilings on some forms of traffic.
 2. Stricter control of the railways' "competitive" rates—those that have been depressed to meet varying competitive conditions.
- It has been a persistent complaint of the outlying provinces that not enough attention has been paid to these two points. They have contended that percentage rate increase place an unduly heavy burden on these because freight charges on their long haul traffic go up disproportionately.

Artificial Respiration Not Enough to Save Lives

An absolute essential in applying artificial respiration successfully is to be sure that the victim's tongue is pulled out and kept out during efforts to revive him, says Dr. Gordon Bates in the current issue of Health magazine.

"A Health League of Canada Committee under the leadership of the late Sir Frederick Banting some years ago pointed out that in a large number of apparent drownings there was no water in the lungs but that laryngeal spasm was responsible," writes Dr. Bates. "If this spasm were relieved in time there was a much better chance of reviving the victim."

Pulling the drowning victim's tongue out and keeping it out while artificial respiration is being applied is the only known method up to now of making sure that passage of air into the lungs is not impeded.

The general director of the Health League also throws light on another popular misconception—namely that many persons believe artificial respiration to be useless if an unconscious person is taken from the water after more than a few minutes' immersion. As a matter of fact there have been well authenticated stories of the apparently drowned having been resuscitated after an immersion of half an hour.

The only safe rule is to start artificial respiration immediately and to keep it up continuously for not less than four hours or until rigor mortis, a sure sign of death, occurs.

Individuals may claim income tax deduction up to 10 per cent of their income on funds donated to Red Cross.

THE ADVOCATE

District News

MAJORVILLE

Mr. and Mrs. Clare Francis of Longview were overnight guests of Mr. and Mrs. Lewis Greaves. They also visited other relatives in the district.

Mr. and Mrs. Bill Osler of Vancouver were recent guests of their son-in-law and daughter, Mr. and Mrs. H. Northcott. While here they were evening guests of Jack Deitz and Clarence Umschelds.

Mr. and Mrs. Lloyd Jacobson of Enchant were weekend guests of the latter's parents, Mr. and Mrs. C. Heather. Mr. and Mrs. Jacobson went to Calgary for the Stampede Parade and also visited Mr. and Mrs. D. Gordon.

The Lutheran Ladies Aid held their July meeting at the home of Mrs. George Heather. In the absence of Mrs. Deitz, Mrs. Hellevang was in the chair. Despite Stampede Week a good amount of members and visitors were in attendance. Pastor Jacobson took charge of the devotional part of the meeting and Mrs. Preville gave an interesting report of the Enchant Conference.

A delightful lunch brought the afternoon to a close. Assisting hostesses were Mrs. A. Heather and Mrs. B. Deitz.

Mr. and Mrs. A. Heather and their guests Mr. and Mrs. H. Lovell were evening visitors at the homes of Leslie Greave.

Mrs. Campbell of Elnora is visiting her daughter and son-in-law, Mr. and Mrs. Bartsch.

Mr. and Mrs. Eric Huskins and Bobby of Berkeley, Calif., were in the district for a day or two. Eric taught school at Liberty for a number of years and they are at present in Calgary with Mr. and Mrs. Laughren, Mrs. Huskins' parents.

A number of farmers are busy haying and a few have been lucky enough to get some stacked during the few nice days. Crops look excellent and in places have started heading. Hot weather would help a lot.

ENSIGN

Mr. and Mrs. J. Williams and family are home after spending the past two weeks holidaying at the coast.

Mr. and Mrs. Archie Ferguson are the proud parents of twins, a boy and a girl, born on Monday, July 9th at the local hospital. Congratulations.

Stampede visitors at Calgary were Mr. and Mrs. E. Hansen, Mr. and Mrs. C. Mote and family, Mr. and Mrs. B. Larson and girls, Mr. and Mrs. R. McFadden and Daphne, Mr. and Mrs. B. Turley, Jim Ferguson, Mr. and Mrs. J. O'Dwyer, Mr. and Mrs. Mooney and Mr. and Mrs. H. Fisher.

Mr. and Mrs. G. Flebotte spent a few days last week with their daughter and son-in-law, Mr. and Mrs. H. Brown of Okotoks. On returning home Mrs. Brown accompanied them to remain here for a week.

Phil O'Dwyer is on a fishing trip this week at Bragg Creek. Hope he catches some big ones.

Mr. and Mrs. B. Brown and Mr. and Mrs. Larsen and girls were Sunday visitors at Brooks.

QUEENSTOWN

Mr. A. V. Symes went to Calgary for the reunion of the Boer War veterans on Monday, July 9.

Calgary Stampede visitors from here were Mr. and Mrs. Jack Bushell, Audrey and Eugene, Mr. and Mrs. George Morris, Mr. and Mrs. George Elder, Mrs. A. G. Croft, Mr. and Mrs. Wray McCallum, Mr. and Mrs. Leslie Long, Jackie and Anne, Mr. and Mrs. Bob Gooch, Shirley Gooch, Mickey McMan, George Nelson, Mrs. V. Smiley, Mrs. S. Spokes, Mr. and Mrs. Don Yuille, Loretta Lahd, Mr. and Mrs. W. F. Mallett, Myrna Cunningham, Lorna and Sheila Nelson, Mr. and Mrs. Jesse Lahd, Mr. and Mrs. Frank Durston, Leila Mae and Marilyn, Mr. and Mrs. Paul Lecuyre.

The crops looked pretty flat between Arrowwood and this side of Shouldice after the hail of last Friday night, which hit at 10 p.m. The stones were as big as eggs and broke the store window in Shouldice and a window in Leslie Long's house and some at the Hutterite Colony. The storm went East from Longs. Orden Lahd, Stanley Brown, Ed Fitzpatrick, Don Yuill, Hutterite Colony, Johnny Papp and Harold Northcott were some that were partially hailed.

Congratulations to Hank Willard and Lloyd Nelson in being crowned the new Chuckwagon Kings for 1951 at the Calgary Stampede; and to their outdiers

for having the least penalties of the week. Their total time for the week was 7 min. 56 seconds. They have gone to Edmonton to compete in the Chuckwagon races they are holding at the Exhibition.

RED CROSS

Visitors at the home of Mr. and Mrs. A. Jacobson this past week were Mr. and Mrs. Tony Klen of Wetaskiwin and Mr. and Mrs. Arthur Southgate of Cayley.

Mr. and Mrs. Jacobson were Calgary visitors for three days this week. Other Stampede last week were Mr. Miller White, Carson Love, Mr. and Mrs. Dunham, Mr. and Mrs. Giles, Mr. and Mrs. Methal and Mr. and Mrs. N. Love.

Miss Margaret Plourd is visiting with her parents.

Mr. and Mrs. J. Hannah returned from their motor trip to Nova Scotia and points east.

The regular meeting of the sun-sine Club was held at the home of Mrs. Methal with nine members and three visitors present. Miss Wewah gave a very interesting display and talk on rug-making.

With The
District Agriculturist
Hugh Michael

Usefulness of 2,4-D Recognized

Since its introduction in 1945, the selective herbicide 2,4-D has received almost universal acceptance among the farmers of western Canada. They have found by experience, on their own farms, that this chemical is a powerful ally in their never ending battle against annual weeds, which previously competed with grains for moisture, plant foods and sunlight. During 1950 western farmers treated over 13 million acres of crop with 2,4-D, this year the number of acres treated is expected to be considerably greater.

2,4-D can be used very effectively if certain factors regarding its use are well understood. First of all, weeds to be controlled, must be recognized and something known of their tolerance to the chemical. Different weeds differ a great deal in the way they react to 2,4-D. Annual weeds such as mustard, lambs quarters or stinkweed are very susceptible to its action, and are easily killed. Many of the perennials such as Canada thistle or Sow thistle are fairly resistant, the above ground portion of the plant showing the greatest effects, however, with several applications combined with cultural control methods, eradication can be obtained. Many troublesome weeds such as wild oats or couch grass are completely resistant to 2,4-D and its use on this type of weed would be a waste of time and effort.

Secondly, the time of application and the actual amount of 2,4-D applied are very important factors, which must be carefully considered if the operation is to be successful. The amount of 2,4-D will vary, depending on the weeds to be killed, the stage of growth and also the soil moisture and temperature. Most susceptible annual weeds are easier killed when they are small but growing rapidly. Once vegetative growth slows up, and reproductive growth begins, even susceptible weeds are difficult to kill. Resistance increases with maturity. 2,4-D should be used as soon as the weeds have germinated in sufficient numbers, and the crop is enough advanced to make its use safe. For the cereals, this is when they have been above the ground for three weeks or are six inches high, 2,4-D should not be used when they are in the shotblade. Spraying or dusting at this time may cause deformed heads and a reduced yield. 2,4-D applied during flowering will cause some of the florets to be sterile, the result being a reduction in yield. Flax should be treated after four leaves are formed, but before reaching the bud stage.

2,4-D is a potent chemical, four ounces being sufficient to kill all susceptible weeds on an acre of land, an additional six ounces per acre will damage the crop. Make sure the amount applied per acre is definitely known and controlled at all times.

In Yukon Territory the three mining districts are Dawson, Mayo and Whitehorse. Virtually all the gold produced in Yukon Territory is from placer operations mainly in the Dawson district.

COMBINE EFFICIENCY

To get maximum capacity, and efficiency in a combine, says M. E. Dodds, of the Experimental Station at Swift Current, Sask., adjustments must be made to minimize or balance the various grain losses by the machine.

The capacity of a combine, he says, is limited by its ability to thresh and separate grain, not by the amount of straw. And capacity and efficiency are closely related.

Efficiency of a combine is a function of the efficiency of the threshing and separating apparatus, plus the efficiency of the cutter bar. This efficiency can be calculated by measuring the losses of grain at the cutter bar, cylinder, and rack and shoe. Losses at the cutter bar usually are greatest.

Weedy crops reduce efficiency. Cutter bar losses increase because the bar is raised often to clear weeds. Separating ability is reduced because of an excess of weeds on the rack and shoe.

Harvesting clean, well-matured crops allows more efficiency because the cutter bar can be operated low enough to catch most of the short straws and threshing and separating conditions are improved.

A typical adjustment to improve overall efficiency is the one made if cutter bar and cylinder losses are low and rack and shoe losses high. The concaves should be lowered, the sieves opened and the cutter bar raised. The sieve shake also may be changed and the wind adjusted.

This will increase the cutter bar loss, but the decrease in rack and shoe loss will result in an increase in overall efficiency.

THE VULCAN ADVOCATE**Champion**

Mr. and Mrs. D. Deal had as their guests last week, the latter's sister and brother-in-law, Mr. and Mrs. Pete Davidson and children, Gavin and Evelyn, from Mendham, Sask.

Mr. and Mrs. Geo. Rhodes of Calgary are visiting at the home of their sons and families in the district.

Mr. and Mrs. Roy Lane of Saskatoon, Sask., have been guests at the home of Mrs. Lane's uncle and aunt, Mr. and Mrs. C. G. Miller.

Visitors at the home of Mr. and Mrs. H. S. Smith were Mr. and Mrs. A. Henry Jepson of Nelson, B.C.

Mr. and Mrs. Chester Dow and son Charles of Bismark, N.D., were guests at the home of Mr. Dow's uncle and aunt, Mr. and Mrs. A. Ferguson. The party was enroute to Fairbanks, Alaska on a holiday tour.

Mrs. C. Wright of Hawthorne, California, arrived Saturday and will remain with her son and daughter-in-law, Mr. and Mrs. George Wright, for a few weeks.

Mr. and Mrs. J. Buehler have as their guests, the former's brother, sister-in-law and family, Mr. and Mrs. August Buehler, Misses Audrey, Adeline and Doreen of Regina, Sask.

Mr. Archie Ruggles has returned home after being a patient in the Carmangay hospital for the past few weeks.

The Women's Association have decided on July 28 as the date on which they will hold their garden party on the church lawn. It is hoped that all who can will attend.

Mr. and Mrs. Jesse Matlock and children spent last weekend visiting relatives in Calgary on their return trip home, Sunday, they witnessed the terrible devastation at Okotoks from the severe hail storm that hit the district that day.

Allan Buchanan and Bill Jopling were weekend visitors to Calgary. Mr. and Mrs. Archie Ruggles had as guests, Mr. and Mrs. Sidney Ruggles and Charles Bowls of Grass Range, Montana, Sidney and Archie Ruggles are brothers.

Miss Yvonne Fraser of Carmangay is spending the holidays at the home of her uncle and aunt, Mr. and Mrs. M. Jones. During her stay she is assisting in Jones's store.

Lee Marie Howerton is visiting in Lucky Lake, Sask. where she is a guest at the home of Mr. and Mrs. Clifford.

Miss Gloria Fraser has returned home after holidaying at Taber as guest of Miss Irene Fox. Instruction and Drill for Firefighting

The volunteer fire brigade of Champion held their first fire drill and class instruction Wednesday, July 11, with H. E. Smith, fire chief, and W. Christensen, Deputy fire chief, in charge. Several interested spectators joined the volunteer firemen during the afternoon to gain what knowledge was available regarding the working and management of the new fire truck. The truck is now ready should an emergency arise. Mock fires were set and extinguished and runs made to acquaint the men with the machine.

At the local baseball diamond on Sunday, Champion and Picture Butte met to play one of their postponed Wheatbelt League games. The game went only six innings owing to the heavy rain storm that practically flooded the town. Champion defeated the visitors by a 17 to 4 score.

Pict. Butte 100 120—4 5 6
Champion 370 025—17 12 2
Anderson, Ferguson (2) and Menzies; M. Smith and K. Schauermann.

Mrs. A. Strange and children of Falien, Alta., were house guests at the home of Mr. and Mrs. C. Versluys for a few days last week.

Mr. and Mrs. Jack Sanderson have as their house guests, for a few days, the former's brother and sister-in-law and sons, Mr. and Mrs. Tom Sanderson, Bill and Forrest Sanderson of Michel, B.C.

Mrs. C. G. Miller was a visitor to Lethbridge where she was the guest of her daughters, and son-in-law, Miss Margaret Miller and Mr. and Mrs. D. Stewart.

Mr. and Mrs. L. W. Lackey and daughter, Rosalind, attended the Calgary Stampede one day last week.

Mr. and Mrs. Jay Little of Stavely were recent guests at the home of Mr. and Mrs. Frank Little. Renewing old acquaintances of town and district this week, are Mr. and Mrs. J. Clarkston of Telkwa, B.C.

Mr. and Mrs. Bruce Alder and family left last Wednesday on a two week's motor trip to Salmon Arm, Penticton and other points in B.C. where they will visit relatives and friends.

Mr. and Mrs. W. Christensen spent a few days in Calgary last week.

Mr. and Mrs. R. Baregger and sons Robert of Vancouver, B.C., are house guests at the home of

Mrs. Baregger's mother, Mrs. J. Castator.

Mr. and Mrs. Art Ulrich were visitors to Calgary last Friday.

Mr. and Mrs. Ernest Rhodes Jr. had as house guests recently, the former's parents, Mr. and Mrs. Ernest Rhodes Sr. of Hillcrest, also Mr. and Mrs. John Curry, Shirle and Johnny Curry, also of Hillcrest.

Mr. and Mrs. A. Howerton were visitors to Calgary last week where they visited relatives and attended the Stampede.

Mr. and Mrs. George Smith were visitors to Lethbridge Wednesday of last week.

Marjorie Little, daughter of Mr. and Mrs. Frank Little, was a patient in the Vulcan hospital for a few days last week.

Mr. and Mrs. C. Versluys entertained at a house party, complimentary to the house party to occur sometime this autumn.

Miss Esther Fisher of Veteran, Alta. is visiting at the home of her uncle and aunt, Mr. and Mrs. J. Buehler.

Mr. and Mrs. Oscar Hagg were visitors to Calgary for a few days last week.

Hail Storms

Two separate hail storms hit this district Sunday evening, one to the east of town which came within 3 1/2 miles of town and did up to 100 per cent damage, windrows on the north side of buildings were shattered by hail stones as large as walnuts and lay inches deep on the ground. It was about 6 miles wide.

The storm west of town varied in width from 1/2 to 1 1/2 miles, but did not do as extensive damage as the one in the east.

Cyclone

During the weekend a cyclone hit the Chas. McDougall farm, causing considerable damage. A 120 ft. barn was wrecked, the garage with the car were turned around over three-quarters of a turn and the tractor shed was lifted completely off the tractor, which was not damaged. All the buildings but the residence were damaged. A freak incident was that the dog kennel with the dog tied in it, completely disappeared. The dog returned home next morning, but no trace was found of the kennel. Some damage was also done to the Alex McDougall's place just across the road, and to the George Baillie farm as well.

Baseball Diamond Improved

Several members of the local baseball club and the usual willing helpers, erected a compact 5x5 broadcasting booth, last week, at the top of the baseball park grandstand. The structure is 6 ft. in height and provides a long needed vantage point from which to broadcast over the P.A. system, the games, keep score and protect those in charge from the hot sun, rain or what have you. The baseball club stood all expenses for material while the labor was gratis.

The diamond was given a thorough going over with the maintainer then rolled, putting it in much better condition than heretofore.

Since the beginning of the free national Blood Transfusion Service in 1947, Red Cross blood transport drivers have covered more than a million miles of Canadian roads.

U.N. Staff Buys Food for India

Within two weeks after receiving an appeal to aid famine-stricken India, United Nations staff members had contributed over \$11,000 to buy grain for India. Here, Dr. Ralph Bunche, Director of the U.N. Trusteeship Division and Chairman of the U.N. Secretariat's Committee for Food Relief to India, presents a check to George E. H. Marshall of UNICEF. Looking on, from left to right, are: T. A. Raman of India, Secretary of the U.N. Secretariat Committee for Food Relief to India; U.N. Secretary-General Trygve Lie, and Assistant Secretary-General Shamaldharee Lal, also of India.

NOTICE

Ratepayers of the County of Vulcan No. 2 are hereby notified that at the next meeting of the County Council to be held on Friday, August 17th, 1951, the following resolution will be introduced and dealt with

"WHEREAS there are certain lands within the County of Vulcan No. 2 which are not included in any Municipal Hospital District, and

"WHEREAS residents in those areas are unable to obtain hospitalization at the standard Municipal hospital rate of \$1.00 per day, and

"WHEREAS the Council of the County of Vulcan No. 2 deems it advisable to have all lands within the County served by a Municipal Hospital,

NOW THEREFORE be it resolved that the County of Vulcan petition the Minister of Health to include the following lands in the Vulcan Municipal Hospital District No. 19:

Township 18, Ranges 20 and 21, W4th. Sections 1 to 9 16 to 21, 23 to 33. Twp. 19 Range 22. Sections 1, 2, 11 to 14, 23 to 26, 35, 36. Twp. 19 Range 23. All of that portion of Twp. 20, Range 22 within the County of Vulcan No. 2 excepting thereout sections 1-4 and 10-15. All of Twp. 20, range 23 W 4th. All of that portion of Twp. 20, Range 24 within the County of Vulcan No. 2. Those portions of Twp. 21 in ranges 22, 23, and 24 within the County of Vulcan No. 2. That portion of Twp. 15, Range 26, within the County of Vulcan No. 2. And that the Minister of Health include the following lands in the Little Bow Municipal Hospital District No. 25. That portion of the South half of Twp. 15, range 21 within the County of Vulcan No. 2. That portion of Twp. 14, Range 25, within the County of Vulcan No. 2.

These inclusions to be effective Jan. 1st, 1952, and on the approval of the Hospital Boards concerned."

Ratepayers living in these areas are invited to make representations in writing to the County Office in Vulcan for or against the above resolution.

COUNTY OF VULCAN NO. 2
D. D. McQueen,
Secretary-Treasurer.

Carmangay

Mrs. Sarah Quarter of Chicago and daughter Emily of San Francisco, visited at the home of her niece, Mrs. Connie Stettner on Thursday last.

Mrs. Wallace Miller, accompanied her sisters Mrs. F. Holiday, Mrs. Geo. Frid and husband, also her brother Chas. Clutton and wife, on a trip to Oakland, Calif., where they visited their sister, Miss Clutton. They returned on Thursday. While passing through San Francisco, they visited with Mrs. Chas. Summers, a former resident of Carmangay. Mrs. Summers wishes to be remembered to all her friends.

Several farmers east and north of town were badly hailed on Sunday afternoon, some of the hail was an inch through, gardens were riddled and headed crops broken down.

Mr. and Mrs. D. Johnson of Barnwell were Sunday guests at the home of Mr. and Mrs. J. Hurnanen.

Mrs. Cliff Marr of Medicine Hat has been a guest at the home of her sister and brother-in-law, Mr. and Mrs. John Hubka.

Mrs. Ed Gibbie and Mrs. M. Hubka of Claresholm were visitors at the home of Mrs. Gilbert McGinnis on Thursday.

Mr. and Mrs. James Fraser of Coleman have been guests at the home of Mr. and Mrs. Steve Volk.

Mr. and Mrs. Syd Thompson returned on Thursday from a week's holiday spent at Edmonton, Olds and Calgary.

Mr. and Mrs. Raymond Parks of Idaho, early settlers of the Plainfield district were guests at the home of Mr. and Mrs. Alec MacMillan, while visiting with other friends in the district. Mr. and Mrs. Parks left the Plainfield district in 1912, having lived there previous to that time.

Mr. and Mrs. Lewis Lacro had as their guests the latter's brother, David MacPherson and friend Jack MacKay of Trail, B.C. last weekend.

Mr. and Mrs. Lee Baldwin and family motored to Vancouver, B.C. last week to visit with the latter's parents, Mr. and Mrs. Rubie.

Mr. and Mrs. Herman Stettner, Donna, Betty Ann and Mr. and Mrs. Dalton McDougall returned on Sunday from a two week's holiday spent at the coast and in the States.

Mr. and Mrs. Tom Anderson of Maple Creek Sask. are visiting at

the former's brothers home, A. J. Anderson.

Mr. and Mrs. Jack Wurzer of Devon, Alta. were guests at the home of Carl Stettner.

Mr. and Mrs. Wm. Hackford of Power, Mont., were visitors at the home of Mr. and Mrs. Ed Stettner.

Mr. and Mrs. Robert Minty of Creston, B.C. arrived on Saturday to visit with the former's mother, who is a patient in the local hospital.

Mr. and Mrs. Glen MacFarland and son Barry spent last week in Calgary, where Barry had an operation on his eye. He is now convalescing at his home.

Mr. and Mrs. Ralph Clark and two daughters of Creston, B.C. are visiting at the home of their son and daughter-in-law, Mr. and Mrs. Dale Clark.

Mr. and Mrs. Roy Church and Mr. and Mrs. Glen Moore and family motored to Calgary on Friday to attend the Calgary Stampede.

Mrs. I. Nelson returned on Thursday from Calgary, after spending the last five days at the home of Mr. and Mrs. Lars Brand-void.

Mrs. Joe Lacro and daughter are visiting with her mother and brothers at Three Hills.

Mrs. McKenzie, Matron of the local hospital has her daughter of Lethbridge visiting with her for several days.

Patients in the local hospital included Mrs. R. Teskey, Mrs. Alf Wynn, Mrs. Martin Wennes, Mrs. Clarke (Barons), Mrs. J. D. Oatts, Mrs. J. Minty Sr.

Birthday Party

Mrs. Glen MacFarland and Mrs. Gilbert McGinnis entertained in honor of their mother's birthday, Mrs. J. Gower, on Thursday afternoon, when 12 ladies were present.

The afternoon was spent in playing Canasta with Mrs. L. Roemene winning high and Mrs. Martha Nelson low. The hostesses then served a dainty lunch with a lighted birthday cake centering the table. The guest of honor was presented with several gifts from her friends for which she graciously thanked them.

Picnic of North Priscilla Club

Members of the North Priscilla Club with their families gathered at Park Lake on Sunday for their annual picnic. Games and contests were enjoyed and a sumptuous dinner and supper was enjoyed by those present.

District News

MILO

A farewell party was held recently in honor of Billy Watt who left for further training with the Royal Canadian Navy at Esquimalt, B.C.

Miss Helen Stein, formerly employed by M. Willard, is in the Vulcan Hospital as a result of an accident, when her horse fell on her. She will be in a cast for six weeks.

Sunday visitors at the E. A. Anderson home were Mr. and Mrs. A. Marks and Myrna of Armada, Mr. and Mrs. W. Stewart and family of Vulcan, Mr. and Mrs. E. A. Burgess of High River.

Earlene Anderson has returned home after visiting her sisters at Armada and Vulcan.

Mrs. E. Vannatta is recovering from an amputation which she recently underwent in a Calgary hospital. She has since been moved to the Vulcan hospital.

Mr. and Mrs. K. S. MacLean and family spent Sunday, July 8, at the home of E. Beckner. Dale, Myrna and Lana spent a few days at Milo before returning to Calgary.

Mumps are still active in the district, the latest victims are Mrs. D. Brinker and Marilyn, John Ivers and Darcy Turlock.

Congratulations to H. Willard and boys for their success in winning the Chuck Wagon races at Calgary this year. The boys received Stetson Hats for having the least penalties of the week, besides the purse of money and other prizes.

It seems that nearly everyone in the district visited the Calgary Stampede this year.

Mrs. C. Carson and family have returned home this week after visiting her family in Red Deer.

The outdoor Church service which has been postponed for several weeks due to the rain will be held July 29th—if it doesn't rain. Several people attended the picnic at the lake last Sunday, held in honor of Mr. and Mrs. Schaffer of Portland, Oregon who are visiting the latter's parents Mr. and Mrs. C. Umschied.

Daily Vacation Bible School will be held in the Milo school from August 6th to 10th. All children in town and districts are invited to attend.

BERRYWATER

Terry Massey of Bow City is spending a few days at the W. Sharpe home.

The district was well represented at the Calgary Stampede last week.

Mrs. Cecil Sheepy of Calgary is spending a week at the home of her parents Mr. and Mrs. N. L. Richardson.

Ralph Richardson left last Sunday for Olds, where he will represent the Grain Club. He is also attending the Junior Club Week.

Miss Zole Peterson of Lethbridge was a weekend visitor at the T. Webber home.

ADD ENSIGN
Mr. and Mrs. Stan Comstock of Scottfield, and Bruce were visitors at the home of Mrs. Comstock's parents, Mr. and Mrs. Jack McFadden last week.

Mrs. Jack McFadden and Frances were recent visitors at La-combe.

Jim and Joe McFadden and Mrs. Roland were Calgary visitors on Tuesday.

LOMOND

Mrs. A. Gates and daughter Barbara Joan of Vancouver, B.C. have been visiting at the home of Mrs. Kate's brother and sister-in-law, Mr. and Mrs. Ray Elliott for the past three weeks.

Mr. and Mrs. Ernie Linley and son Douglas accompanied by Miss Madeline Gaudreau motored to Calgary on Wednesday to attend the Stampede.

Mr. and Mrs. Bob Skeith and daughter Sharon spent last week end at Waterton guests of Mr. and Mrs. William McLeod.

Mr. and Mrs. Lloyd Benson and family were visitors in Lethbridge on Saturday.

Mr. and Mrs. Norman Erskine are visiting in Calgary.

Mr. and Mrs. Scott Williams returned home on Sunday after spending several days in Calgary.

Mr. and Mrs. Alec Fraser and family were visiting in Brochet, Alta., last Friday at the home of Mrs. Fraser's sister and brother-in-law, Mr. and Mrs. H. Hicks. On Saturday they motored to Water-

ton Lakes, Pincher Creek, Woodhouse and then to Carmangay where they visited Mr. Fraser's father Mr. Sandy Fraser who returned to Lomond with them for a week's visit.

Mr. and Mrs. Stan Craig and son James accompanied by Mrs. Craig's niece Margaret Ann Collison of Ensign spent the past two weeks visiting friends and relatives in Montana and different southern Alberta points. They returned home Sunday evening.

Mr. Sam Croissant of Hilda was a visitor in Lomond on Sunday.

Severe rain and hail storms Saturday, Sunday and Monday caused considerable damage in this district. Farmers from North East and West of Lomond reported from 50 to 100 per cent damage to crops from hail.

Sunday School Bible Classes for children are being held in the St. John's Guild Church in Lomond this week. Lessons are from the Fuller Foundation. A service for parents will be held on Friday.

ALSTON

Calgary Stampede visitors last week were Mr. and Mrs. Sam Beingsnesser and family, Mr. and Mrs. B. M. Williams and family, Mr. and Mrs. Wilfred Callaghan, Mr. and Mrs. Ray Ohlheiser and family, Mr. and Mrs. Roger Hubbard, Mr. Brown McDonald and son Hartley, Reg Drayton, Mr. and Mrs. Frank Beaubier and son Donald, Mr. and Mrs. Evan Williams.

Mrs. John Ohlheiser of Vulcan has been staying at the home of Mr. and Mrs. Felix Strauss for the past week.

Miss Ruby Beingsnesser, Miss Norma Jane Warren and Miss Jean Anderson were sent to Olds for a week to attend the Provincial Convention of the W.I. Mrs. Todd of Kirkcaldy and Mrs. Ray Warren were sent as supervisors, the latter a substitute for Mrs. Wayne Anderson. While there the girls took sewing and cooking and learned many household hints.

Mr. Harold Fath accompanied his parents, Mr. and Mrs. Louie Fath of Calgary to the Peace River area where they spent two weeks holidaying.

Mr. and Mrs. Oliver Anderson of Bellingham, Wash., were visitors at the home of Mr. and Mrs. Roger Hubbard last week.

Mr. and Mrs. Underdahl and granddaughter of Seattle, Wash., have been guests at Mrs. Underdahl's brother-in-law and sister, Mr. and Mrs. Edwin Beingsnesser since July 5. On Sunday July 8 they were picnicking at Vauxhall and on July 15 they were picnicking at Henderson Park at Lethbridge.

Mr. and Mrs. Mike Beingsnesser and daughter Ruby were visitors at the home of Mr. and Mrs. Leslie Shaw and family of Brant on Sunday.

The Alston Wheatkings motored to Brant Sunday afternoon to play ball with Herronton, losing the game to Herronton with a score of 3-2.

Mr. and Mrs. Cameron Middleton were Sunday dinner guests at the home of Mr. and Mrs. Bob Middleton, the occasion being Mrs. Dora Middleton's birthday.

Young Buster Carnegie of Kirkcaldy is a guest of Richard Strauss for several days this week.

The hail and rain storm which struck the district about five o'clock Sunday afternoon did considerable damage. The hail stones many of which were as big as golf balls, broke many windows, and chickens belonging to R. A. Flitton, Mike Beingsnesser, F. Beaubier, Martin Lian and F. Strauss were killed from hail stones with R. A. Flitton losing 83 chickens due to suffocation. A large area of the crops were damaged one hundred per cent, including flower and vegetable gardens. Over an inch of rainfall was reported in less than two hours.

At the Calgary Stampede and Exhibition, Brown McDonald won the following prizes for his sheep, three firsts; four seconds; three thirds; and two fourths.

Mr. and Mrs. Ira Jones and family were Sunday visitors at the home of Mrs. Jones' parents, Mr. and Mrs. J. M. Williams.

Brown McDonald and son Hartley left Tuesday for the Edmonton Exhibition where Mr. McDonald will judge sheep.

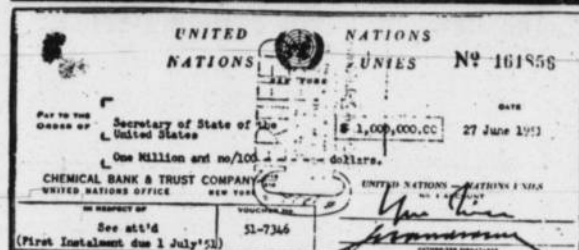

Mr. and Mrs. Joseph Reath and family were Blackie visitors on Sunday.

Tragic Death of Local Farmer

A tragic accident happened in the Carmangay area on Saturday when the tractor of which Mr. Morgan Smith was riding overturned backwards down a steep hill, killing Mr. Smith and then rolling into the river. Mr. Smith was a farmer in this district for several years. He was an active church member and at the time of his death was Presiding Elder of the Champion Branch of the L.D.S. church. He was also a member of the Alston Hall Board.

Surviving are his wife, Mrs. Elva Smith, three sons, Arlen, Eldon and Richard of which the oldest is 13, four daughters, Carol, Linda, Lorraine and Lorna, his mother, Mrs. Evaline Smith of Cardston, and three brothers and three sisters from points in southern Al-

First Payment on U.N. Headquarters Loan

With a smile and the words "I have no speech to make but I have a million dollars . . . here it is!" Byron Price, U.N. Assistant Secretary-General (right) hands over to Ambassador Ernest A. Gross of the United States a check covering the first instalment in repayment of the \$65,000,000 interest-free loan made by the U.S. Government for the construction of the permanent headquarters of the United Nations in New York City. Below, a photograph of the check.

Rat Spotters Wanted

When we realize that the number of rats in Canada is estimated to be at least as large as the human population we can consider ourselves fortunate in Alberta that we still have a rat free province.

W. Lobay, Supervisor of Crop Protection, Alberta Department of Agriculture, cautions against complacency, however. He warns that if rats are to be kept out of the province everyone must be able to recognize both rats and evidence of rats, and be continually on the watch for this pest. "Spot the rats as soon as they appear, and kill the first comers," advises Mr. Lobay. If rats remain undisturbed until a colony of a hundred or so has been established, the chance of complete eradication will be small.

Rats preserved in plastic containers have been placed in district agriculturist's offices and other points so that the public may become familiar with the appearance of this animal. More specimens will be available soon. Every

Albertan should make a point of seeing one of these specimens and noting particularly the face, feet and long round tail.

If you know what to look for, you can spot the presence of rats even before you see them. Rats will appear in buildings wherever there is no cement foundation, especially if the floor is raised from the ground. Chewed boards around the foundation should be regarded with suspicion. Rat droppings, two or three times as large as those of mice, can be seen around the entrance of the burrow. There will be no mounds of soil by the burrow. Gophers and other rodents usually leave such mounds.

Mr. Lobay advises that a powerful new ally in the control of rats is the poison Warfarin. The Alberta Department of Agriculture has a supply of Warfarin ready for immediate use wherever rats may be found in the province. With the co-operation of every citizen and the use of Warfarin where required, we may still hope to keep this province free from rats.

Thousands To Benefit By Pension Changes

Thousands of Canadians, young and old, will benefit from changes in Canada's war pensions set-up approved in the final stages of the Commons session.

The changes will cost the federal treasury an estimated \$5,000,000 a year on top of the present annual pensions bill of about \$100,000,000.

Changes now going into effect will help more than 20,000 war pensioners, widows and dependent children.

They fall under three main headings:

1. A war widow gets \$75.00 a month pension. In the past she would receive an extra \$19 a month for a first child, \$15 for a second and \$12 for each of the others. The rates for the children now are to be doubled.

The change means that a widow with three children will receive \$167 a month. At the present time she receives \$46 less.

2. In the past, pension allowances for children normally ended at 16 for boys, 17 for girls. It will now be possible for the allowances to be continued for any children satisfactorily pursuing higher education. There are now 124,630 children receiving pension allowances.

Officials estimate roughly 3,000 would be taking higher education.

3. About 162,000 disabled veterans draw pensions. Maximum rates for those up to the rank of captain—the great bulk of pensioners—are \$125 for a childless married man, \$84 for a single man. Those are 100 per cent pensioners. The majority have less than 50 per cent disability. Of all pensioners, officials estimate at least 90 per cent work.

There are, however, an estimated 6,000 who can't work and have to rely almost entirely on their pensions. Modest war veterans allowances are available to some on small pensions.

To help those who can't work and whose pensions are too large to enable them to get little if any help in the way of veterans allowances, the House approved an item bringing into existence "unemployability" supplements of \$20 a month for single and \$40 for married pensioners.

Tree Planting Interest Increases

P. D. McCalla, Supervisor of Horticulture, Alberta Department of Agriculture, reports steadily increasing interest in Alberta's campaign to plant more trees. During the past season 1½ million trees were planted, almost ½ million more than in 1950. In a few years, these field, farmstead and roadside shelterbelts will prove of inestimable value in helping to control soil drifting, providing protection for the farm home, and preventing snow-drifting on the roads.

From the number of requests for trees now being received, prospects for 1952 plantings are greater than ever. Mr. McCalla reminds all interested in obtaining trees for the coming season that applications should be made without delay. If left until later it may be difficult to obtain some of the types of trees desired. Trees for shelterbelts are provided free of charge but the land for tree planting next year must be successful during the present season.

Applications for trees should be made as soon as possible to the nearest district agriculturist, or to the Supervisor of Horticulture, Alberta Department of Agriculture, Edmonton.

all you can, advises Mr. Birdsall. This is an excellent year for hay and a few stacks in reserve will be well worthwhile.

Australia Wants Population

Australia, with a meagre population and a huge land area, is following an immigration policy calculated to obtain 200,000 migrants a year for the next ten years. The latest population figures for that country are around 8,000,000.

An effort is being made to keep migration predominantly British, but immigrants from other countries are also encouraged. About 25,000 a year will come from the Netherlands, 10,000 to 15,000 a year from Italy and quite a number from the international refugee organizations. By the end of the present year 170,000 displaced persons will have reached Australia.

It is calculated that about 60 per cent of the newcomers will receive some measure of government assistance. There are certain requirements governing the entry of non-British immigrants. They must be persons of European origin likely to be assimilated into the Australian community. Those skilled in trades or professions in which there is a definite demand are welcomed. Evidence must be produced of good character and sound health, and there is also an age restriction.

Nationals from Germany, Italy and other ex-enemy countries, and stateless persons are admitted for a period of two years. If their conduct is satisfactory they are allowed to remain.

The war with Japan taught the Australians the insecurity of their position—a comparatively few million people in a vast country, incapable of defending their homeland.

CUT HAY AT THE RIGHT TIME

Most Alberta farmers cut their hay too late, says J. E. Birdsall, Supervisor of Crop Improvement, Alberta Department of Agriculture. Two things to keep in mind when harvesting hay are feed value and tonnage. The earlier the hay is cut the higher will be the feed value and the less the tonnage. The later the hay is cut, the lower will be the feed value and, to a point, the greater the tonnage. Remember that a little less roughage of good quality is worth far more than a greater amount of coarse, poor hay.

Since most of our hay mixtures contain alfalfa, the stage of development of the alfalfa provides a guide for the best time to cut. Hay should start when the alfalfa is about 1-1½ in bloom. Grasses, if grown alone, should be cut in the early heading stage. Red clover and alsike may be cut for hay in the full bloom stage. Cut your hay in time, and cut

NEWS OF INTEREST

Six thousand meals were provided by Red Cross to the victims of the Rimouski fire.

Approximately 1,200,000 Canadians belonged to some 1400 active senior branches of the Canadian Red Cross Society in 1950.

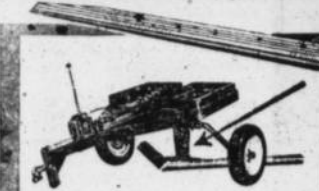

One hundred thousand people were given transfusions of free whole blood or plasma supplied by the Red Cross during 1950.

The total value of minerals produced in the Northwest Territories to the end of 1949 was \$31,721,499.

KIRKCALDY

Mrs. Laverne Gale and Terry of Field, B.C., spent a few days at the home of the former's brother and sister-in-law, Mr. and Mrs. Joe Main last week.

Marlene Urquhart, Ruby Beingsen, Norma Jane Warren, Phyllis Todd of the Busy Bees Girls Club, Diane Racher, Barbara Ohlheimer of The Jolly Time Girls Club, Mrs. Henry Todd, Mrs. Warren went to Olds last Monday to attend Girls Club convention.

Mr. Harry Hanson was a Calgary visitor on Saturday.

Earl Brinton is spending part of his holidays with relatives in Calgary.

Calgary Stampede visitors during the week were Mr. and Mrs. J. O'Reilly and Mr. and Mrs. Joe Main, Darrel Maisey, Mr. and Mrs. Donald Mackay, Don Mallory and Bussy Carnegie, Doug Wilson, Wentworth Brenton, Henry Hanson, Mr. and Mrs. Calvin Hollister. Miss Betty Hollister is attending the Church of Christ Young Peoples camp at Pine Lake this week.

Mrs. James O'Reilly was hostess to a Stanley Tea last week.

Mrs. Urquhart was hostess for a Tupperware Tea on June 26.

Mr. and Mrs. Brinton Sr. of Calgary and Mr. and Mrs. Cameron of Oregon spent last Sunday at the W. Brinton home.

Bussy Carnegie is visiting at the home of Mr. and Mrs. Felix Strauss this week.

Mr. and Mrs. Clarence Martin and family and Bill Vian attended the opening of St. Mary's Dam on Monday.

Miss Marlene Urquhart is spending her holidays at the home of Mr. and Mrs. Sanderson at Champion.

A. J. Maisey returned home from Calgary on Monday after holidaying at the coast.

EASTWAY

This district is extremely pleased that a local resident is the driver and part-owner of the world's champion chuckwagon outfit. Congratulations H. Willard, also the four outriders. Two of them were local men Bob and Harry Gooch. The other two were George Nelson of Queenstown and Orville Sandquist of Stettler. They lost one of their best known horses "Yankee Gold" in Calgary. The horse, accidentally broke a leg and had to be shot. We wish them all the best of luck in Edmonton. We hope they win again but without any mishaps.

Mrs. Howard Love and daughter Charlotte of Calgary are visiting Mr. and Mrs. Ivo Love and family.

Almost every resident of this district visited Calgary at sometime last week.

The Wells Construction Co. started work last Thursday on No. 24 highway from the Corner store North.

Joe Sutor, Don McNiven and Earnest Ashmore report severe hail damage received Monday evening. Many windows were broken at the Sutors farm.

Helen Stein who has been employed at the Marshall Willard home had a bad accident last week when a horse she was riding slipped and fell on her. She is in the Vulcan hospital where she will remain in a cast for about 6 weeks.

Mr. and Mrs. Wyatt and family, Mr. and Mrs. Laughlin and family, Mr. and Mrs. R. McKenzie and family left Tuesday for a holiday in Great Falls, Mont., and Yellowstone park.

Marion Baldwin is holidaying at home.

Mr. and Mrs. Percy Baldwin, Marion and Ed attended the opening of the St. Marys irrigation project last Sunday.

Mr. and Mrs. Lloyd Ward and family of Moose Jaw, Sask., and Mr. and Mrs. W. Campbell visited at the W. Burgess home July 17.

Norman Marshall and Melvin Burgess visited Shelby, Montana at the weekend.

Donnie Baker of Calgary is holidaying at the home of Mr. and Mrs. Jack McDonnell.

Mr. and Mrs. Skacpak of Acadia Valley and Marjorie of Calgary visited Mr. and Mrs. Martin MacDonnell last week.

Mr. and Mrs. Charlie Asplund and family are spending a few days in Lethbridge this week.

Donna Asplund of Barons is holidaying with her aunt and uncle, Mr. and Mrs. R. N. Hill.

ARROWWOOD

Mr. and Mrs. Milt Hard and family have been spending a few days in Banff.

Mr. Wayne Cochran flew to Portland for a few days.

There has been several hail storms hit the Arrowwood district and practically everyone has a little damage and a great number have from 100 per cent to 50 per cent. There have been many windows broken, the school having 16. One farmer had 50 panes of glass

broken on his buildings.

Mr. and Mrs. Mark DeWitt and family spent last week in the States having a short holiday.

The Brethern Young people are having there camp this week at Water Valley.

Mrs. Ronald Deiter and daughter Jeanette are spending a few days with the Jonas Deiter's in Arrowwood.

Mr. and Mrs. Walter Steiner are spending a few days in U.S.A. Miss LaDonna Culp is now working in the Bank of Nova Scotia here in town.

Arrowwood plans to hold the Blood Donors clinic on the afternoon of August 7, from 1 o'clock till 3 o'clock.

81 Students At
Red Cross Camp

Eighty-one high school delegates, another bear and her three cubs attended the second annual Junior Red Cross leadership training centre at the Y.M.C.A. camp, Lake Edith, from July 3 to July 12.

The delegates, from the three western provinces of Canada, and four from the United States, spent their time at the camp in an intensive and discussion-packed program designed to make them the Junior Red Cross leaders in their respective schools. The bears dropped in intermittently during the day and supplied the comic relief — emptying the garbage cans, scooting across the field during the ball games and precluding any pre-lights' out snacks in the tents, for the students slept under canvas.

Camp president was Edward Bower of Red Deer; vice-president was David Berger of Mount Vernon, Wash.; secretary was Dolores Sawchuk of Regina; sports representative, Vail Marritt of Edmonton and social convener, Colin Campbell of Vancouver.

From 7 a.m. to lights out at 10.15 p.m., the students followed a rigid schedule that not only gave them basic Red Cross knowledge, but allowed them to exchange ideas and develop various elective crafts. A camp newspaper, sketching, wood-working, first aid, sewing, home nursing, and swimming and water safety were all enjoyed in addition to Red Cross films and lectures.

Special guest at the camp was Dr. Muriel Uprichard of Toronto, national director of the Junior Red Cross, who addressed the delegates on the history, philosophy, and international aspects of Red Cross. Other speakers were Dr. I. Buchanan, Edmonton, on the Blood Transfusion Service; A. H. Skenfield, Edmonton, Red Cross disaster relief; Dr. P. J. Kimmitt, Edmonton, family relations; and R. C. Bishop, Calgary, provincial director of Red Cross Swimming and Water Safety, on that topic.

Dr. J. C. Jonason, Edmonton, was camp director.

TO HOLD ANNUAL
FIELD DAY

Everyone interested in farming should attempt to attend the annual Field Day at the Lethbridge Experimental Station. This year the Field Day is being held on Wednesday, July 25. Tours to the various plots will commence at 9:00 a.m. providing the weather is suitable.

Dr. J. L. Doughty, officer-in-charge of the Soil Research laboratory at Swift Current will be the chief speaker, his subject being, "Your Soil and Mine." Dr. Doughty is scheduled to speak at 2:30 p.m.

In addition to the rapid expansion of irrigation in Southern Alberta, and up to date system of dry land farming embodying all practical aspects of soil conservation is necessary. Maintenance of soil fertility, trash cover farming, wind and water erosion control are all important factors contributing to a stable and sound farming for our prairies. Mr. Palmer, Superintendent of the Lethbridge Station says, "It is along these lines that our program has been designed for Wednesday, July 25.

Of special interest will be plots featuring various seed drill tests, and seed bed preparations for dry land grain farming. Crop rotation and chemical weed control experiments, along with a variety of trash cover plots will be seen.

The new Food Processing Laboratory, with its modern freezing facilities, should be of interest to everyone. Ladies are especially invited to examine these facilities as well as the gardens and flower plots.

Specialists will be on hand for consultation should anyone present wish to discuss specific problems.

Games, movies, and races will be provided for the entertainment of the children.

Picnic tables, free coffee, milk and cream will be available to those bringing a picnic lunch.

Plan now to meet your friends at the Lethbridge Experimental Station on Wednesday, July 25.

Shelterbelts and
Soil Moisture

The value of shelterbelts as a means of conserving moisture and increasing crop yields has been demonstrated at the dominion experimental station at Swift Current, Saskatchewan.

A dense belt of trees, 25 feet in height, will cause a reduction in wind velocity and evaporation to a distance of over 400 feet in leeward. Soil samples collected near shelterbelts in the spring have, as a result of snow accumulation, shown an increase in soil moisture for a distance of 25 to 150 feet.

Yields of wheat have been heaviest near the shelterbelt, diminishing until a point is reached which is representative of the field as a whole. The distance varies with the height of the trees. Belts 5 to 8 feet high are effective for approximately 75 feet, those 8 to 15 feet high to 150 feet, and those from 15 to 25 feet high up to 200 feet.

Several thousand of the 250,000 trout distributed in the waters of Canada's National Parks in 1950 were marked by the National Parks Service. When these trout are caught they will provide invaluable information on their growth, survival and migration.

The Queenstown-Milo
Branch of the
Canadian Legion

will hold their

Annual Picnic

at Bassano Dam

Sun., July 29

Races for all the children, ball games, target shooting, fishing, boating and other games will make up the days activities. Free refreshments will be given to all the children.

TO CARRY ROYAL COUPLE

The 20,000-ton Canadian Pacific liner Empress of France, in regular service between Liverpool, England and Montreal, has been chosen to carry Princess Elizabeth and the Duke of Edinburgh to Canada for their tour of this country. Inset shows Captain B. B. Grant, a veteran of 32 years' service with the Canadian Pacific Steamships, who holds the rank of Commodore in the Royal Navy Reserve, and who will be in command of the vessel on her historic voyage. Also to be aboard the ship on the trip are several company officers and men who attended King George and Queen Elizabeth on the Empress of Britain when they returned to the United Kingdom following their tour of Canada in 1939. The Empress will sail from Liverpool with the royal couple, September 25, arriving at Quebec, October 1.
